Will Be Big Crowd At Gas Mens Convention.

There will be a large attendance from Tulsa at the gas mens convention at Cleveland next week and from other oil centers the attendance promises to be equally large.

There will be many interesting sessions that will be of great value to the oil men. The convention will be held at the Hotel Cleveland, Cleveland, Ohio, from May 20 to May 24.

Among those from Tulsa who will attend are: A. H. Leonard, of the Oklahoma Natural Gas Co.; G. T. Braden, of the Oklahoma Natural Gas Co.; H. C. Sharp, of the Oklahoma Natural Gas Co.; Paul L. Payne, of the Oklahoma Natural Gas Co.; J. W. Kline, of the Oklahoma Natural Gas Co.; F. J. Bradford, of the Oklahoma Natural Gas Co.; and many others.

The convention will be held at the Hotel Cleveland, Cleveland, Ohio, from May 20 to May 24. The sessions will be held at 10 o'clock each morning and at 2 o'clock each afternoon.

The convention will be held at the Hotel Cleveland, Cleveland, Ohio, from May 20 to May 24. The sessions will be held at 10 o'clock each morning and at 2 o'clock each afternoon.

The convention will be held at the Hotel Cleveland, Cleveland, Ohio, from May 20 to May 24. The sessions will be held at 10 o'clock each morning and at 2 o'clock each afternoon.

the northeast of 21-27-12 is shut down at 1,550 feet.

Oil Men As Shorthorn Breeders.

Yesterday's sale demonstrated plainly that oil men can make good and at the same time enjoy the pleasure of doing something for the upbuilding of the community, and more than all, to show the best results in the way of making money in the raising of high grade stock.

Great credit is due J. E. Crosby, oil supplier and John Kramer for showing the way, and now that several other oil men have a touch of the fever, it is a foregone conclusion that several more, including Dr. Klippert, H. P. Anderson and others, are going to get into the game and are bound to make money just as these gentlemen who held the sale yesterday have done.

A. A. Waters of Pawnee city, said to be the two leading professors from the Kansas State Agricultural school and the A. and M. college of Oklahoma, both great authorities, and he says that both were much pleased with the showing at the sale, and that both said, in which Crosby himself agreed, that the sale was the best all round stock sale they had ever attended.

This is going some.

The E. W. Kimbley well No. 2, in the northeast of the northeast, southeast of 27-13-12, which has been on the top of the sand at 1,048 feet for some time, and was reported ready to drill in after setting the 5 3/4-inch casing to that depth, was drilled 8 feet in the sand yesterday and is standing with 1,500 feet of oil in the hole. The production of the well has not yet been estimated.

The well is an old gas well which has been drilled deeper from the sand around 2,350 feet, and is the third deep test in the immediate vicinity. The Prairie Oil company completed a well in 26 several months ago good for 75 barrels of oil, and Kimbley drilled one in section 20 to the same sand, which made about 10 barrels of oil and 20,000,000 feet of gas.

The No. 2 well just being drilled in looks better than either of these, it being thought that there is a possibility of the well making 500 barrels.

The Carter Oil company No. 2 well in the center of the east line of the northeast of 5-23-12 is nearing completion in the Bartlesville at 1,269 feet.

The Titus and others well No. 12 in the northeast corner of the southwest of the northeast of the southwest of 34-22-12 is good for 30 barrels in that sand which is found at 1,430 feet.

The Osage Natural No. 3 in the northeast corner of 15-23-12 is a failure.

The same company No. 8 in the southwest corner of the southwest of the southwest of 5-20-12 has the Bartlesville and is showing for a well, amount not yet estimated.

Gillespie and Grimes are drilling at 2,200 feet in the No. 4 in the southeast corner of the northeast of 6-20-12. The well is being deepened from the Bartlesville in an effort to get a producer in the Mississippi line.

Two small wells are reported for the past week in township 24 and range 11 in the Osage. The Osage Oil company No. 12 well in the northeast corner of the southeast of the northeast of the southwest of 10-24-12 is estimated at 20 barrels in the sand from 1,849 to 1,730 feet. It was shot with 500 quarts.

The Wolverine Oil company No. 33 in the center of the east line of the east half of the southeast of 13-14-11 is making 5 barrels of oil at 1,706 to 1,755 feet.

Rigs are still up for the L. Friedman No. 1 in the northeast corner of 12-14-11 and Nos. 10 Gilliam in the northwest corner of the southwest of 31-30 in the northeast corner of the northeast of the northeast of 44 in the southeast corner of the northeast of the southeast of the southwest of 30-24-12 is budding.

The Skelton & Moore No. 3 in the southwest corner of the northeast of 32-26-12 is making 20 barrels a day.

The Wiser Oil company No. 48 in the northeast corner of 21-27-12 is a rig up.

The same company No. 49 in the northwest corner of the southeast of 21-27-12 is a rig up.

The A. M. Landon No. 12 in the northwest corner of the southwest of the southwest of the southwest of 28-27-12 has the sand from 1,609 to 1,627 and is shut down at a depth of 1,797 feet.

The John Fitzgerald No. 4 in the southeast corner of the southwest of the southeast of the northeast of 29-27-12 is a rig up.

The Charles Owens No. 24 in the northwest corner of the southeast of 29-27-12 is a rig up.

The same company No. 25 in the northwest corner of the southeast of 29-27-12 is a rig up.

The same company No. 26 in the northwest corner of the southeast of 29-27-12 is a rig up.

The same company No. 27 in the northwest corner of the southeast of 29-27-12 is a rig up.

The same company No. 28 in the northwest corner of the southeast of 29-27-12 is a rig up.

The same company No. 29 in the northwest corner of the southeast of 29-27-12 is a rig up.

The same company No. 30 in the northwest corner of the southeast of 29-27-12 is a rig up.

The same company No. 31 in the northwest corner of the southeast of 29-27-12 is a rig up.

The same company No. 32 in the northwest corner of the southeast of 29-27-12 is a rig up.

The same company No. 33 in the northwest corner of the southeast of 29-27-12 is a rig up.

The same company No. 34 in the northwest corner of the southeast of 29-27-12 is a rig up.

The same company No. 35 in the northwest corner of the southeast of 29-27-12 is a rig up.

The same company No. 36 in the northwest corner of the southeast of 29-27-12 is a rig up.

The same company No. 37 in the northwest corner of the southeast of 29-27-12 is a rig up.

The same company No. 38 in the northwest corner of the southeast of 29-27-12 is a rig up.

The same company No. 39 in the northwest corner of the southeast of 29-27-12 is a rig up.

The same company No. 40 in the northwest corner of the southeast of 29-27-12 is a rig up.

The same company No. 41 in the northwest corner of the southeast of 29-27-12 is a rig up.

The same company No. 42 in the northwest corner of the southeast of 29-27-12 is a rig up.

The same company No. 43 in the northwest corner of the southeast of 29-27-12 is a rig up.

and 54 in the southeast corner of the northeast of the southeast of the northwest of the section.

Another Gas Well East of Bixby.

Tom Lofland and others have a showing for a big gas well at 1,500 feet, which is located at the center of the west line of the southeast of the northwest of 11-17-12. It is across the river east of the big gas well recently completed, and makes it look as though the river bed itself would be good drilling territory.

The McGinnis and others No. 22 in the northwest corner of 35-29-10 is drilling at 900 feet.

The Hamsey No. 1 in the center of the south line of the northwest of the southwest of the northeast of 29-23-11 is drilling at 800 feet.

The H. M. Weaver No. 1 in the southwest corner of the southeast of the southwest of the northeast of 20-26-10 is a rig.

The Leo Kaufman No. 1 in the southeast corner of 33-26-10 is drilling at 1,145 feet.

The Barnsdall Oil company No. 3 in the northwest corner of the southwest of the northeast of the northeast of 24-24-10 is a rig up.

The Phillips Petroleum company No. 4 in the northeast corner of the southeast of the southeast of the northeast of 1-26-11 is drilling at 1,600 feet.

The W. A. Reynolds No. 1 in the northeast corner of the southwest of 17-26-11 is drilling at 785 feet.

The J. P. Title No. 3 (Roanoke) in the southwest of the southeast of the southwest of the northeast of 17-26-11 is a rig.

The C. K. Drasser No. 1 in the southeast of the southeast of the southwest of the northeast of 31-26-11 is a rig up.

The Barnsdall Oil company No. 1 in the northeast corner of the southeast of 32-24-11 is rigging up.

The Magnolia Petroleum company well in the northeast of the southwest of the southeast of 1-13-5 is a rig.

The Garr Oil company is moving in timbers for No. 1 Garr in the southwest of the northeast of 9-13-5.

The New American company No. 8 Hennie in the northwest corner of the northeast of 13-19-5 is making a rig up.

The Jackson & Wise and American Pipe Line company No. 1 in the northeast corner of the southeast of 13-19-5 is making three barrels a day.

The Roxana Petroleum company No. 1187 in the southeast corner of 11-28-10 is a rig up.

The Jackson & Wise and American Pipe Line company No. 1 in the northeast corner of the southeast of 13-19-5 is making three barrels a day.

The Roxana Petroleum company No. 1187 in the southeast corner of 11-28-10 is a rig up.

The Jackson & Wise and American Pipe Line company No. 1 in the northeast corner of the southeast of 13-19-5 is making three barrels a day.

The Roxana Petroleum company No. 1187 in the southeast corner of 11-28-10 is a rig up.

The Jackson & Wise and American Pipe Line company No. 1 in the northeast corner of the southeast of 13-19-5 is making three barrels a day.

The Roxana Petroleum company No. 1187 in the southeast corner of 11-28-10 is a rig up.

The Jackson & Wise and American Pipe Line company No. 1 in the northeast corner of the southeast of 13-19-5 is making three barrels a day.

The Roxana Petroleum company No. 1187 in the southeast corner of 11-28-10 is a rig up.

The Jackson & Wise and American Pipe Line company No. 1 in the northeast corner of the southeast of 13-19-5 is making three barrels a day.

The Roxana Petroleum company No. 1187 in the southeast corner of 11-28-10 is a rig up.

The Jackson & Wise and American Pipe Line company No. 1 in the northeast corner of the southeast of 13-19-5 is making three barrels a day.

The Roxana Petroleum company No. 1187 in the southeast corner of 11-28-10 is a rig up.

The Jackson & Wise and American Pipe Line company No. 1 in the northeast corner of the southeast of 13-19-5 is making three barrels a day.

The Roxana Petroleum company No. 1187 in the southeast corner of 11-28-10 is a rig up.

The Jackson & Wise and American Pipe Line company No. 1 in the northeast corner of the southeast of 13-19-5 is making three barrels a day.

The Roxana Petroleum company No. 1187 in the southeast corner of 11-28-10 is a rig up.

The Jackson & Wise and American Pipe Line company No. 1 in the northeast corner of the southeast of 13-19-5 is making three barrels a day.

The Roxana Petroleum company No. 1187 in the southeast corner of 11-28-10 is a rig up.

The Jackson & Wise and American Pipe Line company No. 1 in the northeast corner of the southeast of 13-19-5 is making three barrels a day.

The Roxana Petroleum company No. 1187 in the southeast corner of 11-28-10 is a rig up.

The Jackson & Wise and American Pipe Line company No. 1 in the northeast corner of the southeast of 13-19-5 is making three barrels a day.

northeast corner of the northwest of 14-28-10 is a rig up.

The L. C. Lufeld No. 12 in the northwest corner of 35-29-10 is making 10 barrels a day.

The Clover Oil company No. 1 in the northeast corner of the southeast of the northeast of the southeast of 21-29-11 is a rig up.

The McKinney and others No. 22 in the northwest corner of 35-29-10 is drilling at 900 feet.

The Hamsey No. 1 in the center of the south line of the northwest of the southwest of the northeast of 29-23-11 is drilling at 800 feet.

The H. M. Weaver No. 1 in the southwest corner of the southeast of the southwest of the northeast of 20-26-10 is a rig.

The Leo Kaufman No. 1 in the southeast corner of 33-26-10 is drilling at 1,145 feet.
